“ I wanted an RMS that the team could access from the middle of nowhere. Something friendly and modern for the younger cohort of analysts. Other products just aren't there. They look clunky. The look of Verity was very user-friendly”

Trey Snow

Director of Research
The London Company

About Verity

Verity is a leading provider of research management software, data and analytics delivered through a comprehensive platform to provide best-in-class workflow, portfolio monitoring, and idea generation solutions to more than 350 institutional investors globally. The platform is the result of a strategic merger between MackeyRMS and InsiderScore, sponsored by Resurgens Technology Partner. Between Mackey's cloud-based research platform and InsiderScore's data and analytics, the merged company delivers a powerful Platform combining data, analytics, and research management software solutions for investment teams conducting fundamental research for actively managed client portfolios. The company is headquartered in Boston, with offices in New York, Princeton, NJ, Seattle, London, and Sydney. For more information, visit www.verityplatform.com.
